PROFESSIONAL SUMMARY

Motivated Computer Science student with hands-on experience in software development, web development, Android application development, databases, and REST API integration. Skilled in Python, Java, C++, SQL, HTML, CSS, JavaScript, Next.js, Firebase, and Supabase. Strong problem-solving skills with experience developing real-world software projects and a willingness to learn new technologies.

EDUCATION

Maharana Pratap Engineering College (MPEC), Kanpur, *Bachelor of Technology in Computer Science and Engineering*
Expected Graduation: 2027 CGPA: 7.2

MAA S.V.M Inter College, *Intermediate*
Result: 75%

AN Ambedkar Inter College, *High School*
Result: 73%

TECHNICAL SKILLS

Programming Languages (C, C++, Python, Java) | **Frontend Development** (HTML, CSS, JavaScript, Next.js, Responsive Web Design) | **Developer Tools** (Git, GitHub, Visual Studio Code, Vercel, Android Studio) | **Database & Backend** (Firebase Realtime Database, Supabase, REST API Integration, SQL) | **Computer Science Fundamentals** (Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Problem Solving, Debugging)

PROJECTS

Smart Ambulance System 🔗, *Java, Android, Firebase, Google Maps API, REST APIs*

- Developed an Android-based emergency response application for real-time ambulance tracking and emergency coordination.
- Implemented real-time location tracking, route visualization, emergency alerts, hospital selection, and automatic emergency completion.
- Integrated Firebase Authentication and Realtime Database with Google Maps and REST-based routing APIs for location and navigation features.
- Implemented off-route detection and controlled rerouting to improve navigation reliability and reduce unnecessary API requests.
- GitHub: github.com/Ahmad2k04/Smart-Ambulance-System 🔗

Garage Management Website 🔗, *HTML, CSS, JavaScript*

- Designed and developed a responsive garage management website.
- Implemented service tracking and customer management functionality.
- Built a responsive and user-friendly interface.
- GitHub: github.com/Ahmad2k04/Motors_project 🔗

Learning Dashboard 🔗, *Next.js, TypeScript, Supabase, Vercel*

- Developed a responsive learning dashboard for managing courses and tracking learning progress.
- Integrated Supabase for data storage and retrieval.
- Deployed the application using Vercel.
- GitHub: github.com/Ahmad2k04/Learning-Dashboard 🔗

CERTIFICATIONS

IBM Data Visualization Using Python (Learned data visualization techniques using Python. • Worked with data representation and visualization concepts. • Gained practical exposure to Python-based analytics tools.)

CORE STRENGTH

- Analytical Problem Solving
- Team Collaboration
- Time Management
- Effective Communication
- Adaptability
- Continuous Learning
